

FrameLess Curved

An enveloping image is more involving. This is why we developed the curved version of FrameLess – for a totally immersive experience.

Capturing the viewer's attention with its curved screen, this is an admirable product that blends seamlessly into an elegant ambience while delivering high-quality images.

The aluminium profile (108x32 mm) prevents warping and ensures even greater flatness of the projection fabric, which is fastened to the back of the profile by a system of metal springs. This additional feature helps avoid any ripples or creases.

With the projection fabric covering its entire frame, FrameLess Curved engages in a dialogue with the surrounding wall and enhances the room like a furnishing accessory.

The effect is one of practical lightness.

Sizes range from 2 to 6 m and can be fitted with front-projection fabrics.
