

FramePro Front Elastic Bands

Version with front-mounted projection surface, applied with elastics

The best response to aesthetic demands and to the expectations of minimalist architecture: the projection surface conceals the structural parts of the screen, harmonising discreetly with the surrounding ambience. The wall mount (all sizes) includes spacers: this solution has been designed especially for easy installation, and to separate the screen from the wall by a couple of centimetres where necessary (e.g. in case of backlighting). Alternatively, floor assembly is possible by means of specific professional stands. Sizes are customisable. The profile can be divided into several parts.

Create your own screen with the PSS:

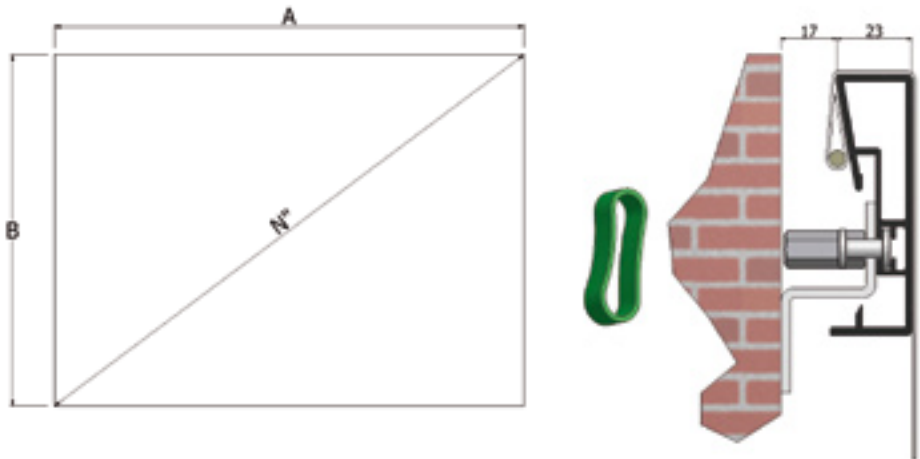

- > **personalized dimensions:** width and height
- > **projection surfaces:** VisionWhitePro and VisionGrey
- > **for transportation purposes:** base and/or height sections can be divided into two parts

Standard accessories:

- > elastic cables
- > fabric angles (for precise finishing)
- > joints (where applicable)
- > nuts and bolts for tightening the angles and joints
- > brackets for wall mount

Optional accessories:

- > stands for screen, complete with anchoring system
- > kit with rings for anchoring the screen to tubular structures
